

Ali Lavoie

Storyboard Artist & 2D Animator

Shot Sheet

Forest Spirit

I animated this using deformer-based rig that I created using Toon Boom Harmony. I used textured brushes in Adobe Photoshop to create the assets.

Ground Control

The short film Ground Control was created by Ally Schroy. I worked on rough animation for these selected shots. This film was animated in Toon Boom Harmony.

Fanatic

This project was created over the span of ten weeks with the restriction of telling a story in only three shots. For this project, I focused on character acting, layouts, and character design.

Rat Baby

The dialogue in this clip is from Polygon's YouTube series *Monster Factory*. I animated this piece to practice squash & stretch and lip sync.

Infinite Dog

I made this animation using Toon Boom Harmony to practice quadruped run cycles.

CPU Kid Walk Cycle

I animated this using a deformer-based rig I created in Toon Boom Harmony. My goal was to replicate the bouncy walk often used in 30s-40s Fleischer Studios cartoons.

Music used for this reel is Plantasia by Mort Garson
